Andi Thomaj

Date of birth: 20 Aug 1994 | **Nationality:** Albanian | **Phone number:**

(+355) 697566961 (Mobile) | **Email address:** andi.dev94@gmail.com |

Address: Rruga Qazim Hanmja, 1004, Tirana, Albania (Home)

ABOUT ME

Azure Cloud Architect and Senior Software Engineer fluent in C#, T-SQL and js.

WORK EXPERIENCE

1 FEB 2024 – CURRENT Tirana, Albania
SENIOR SOFTWARE ENGINEER TIRANA BANK

Project: *Pensions Windows Service*
- Created a windows service that fetches pension data from a government service and transacts them to the pensioner bank accounts.
- I was in charge of the project as a senior software engineer and engineered and developed the application from start to end.

Project: *Digital Onboarding*
- *Worked on developing the digital onboarding process for the customers of the bank. Now the customers can register online to the bank and open a bank account.*

AUG 2022 – FEB 2024 Vienna, Austria
PROFESSIONAL SOFTWARE ENGINEER ZUEHLKE

Project: *IoT Platform*

- The project was related to creating a cloud platform where the smart devices like fridges and ovens would connect and provision themselves. The repository consisted of many Azure functions depending on a specific product, Azure Service Bus, Web APIs, Relational and Non-Relational Databases, a frontend in Angular and many scripts related to Infrastructure as a Code(powershell and bicep).

In this project I also took charge of the daily(Scrum) and of the Sprint Review.

The stack of the project consisted of:
- **C# .NET**
- **Angular**
- **Azure**
- **Azure DevOps**
- **Bicep**
- **Powershell**

FEB 2020 – JUL 2022 Tirana, Albania
FULL STACK .NET DEVELOPER FREELANCER

As a freelancer I built .NET applications for clients in various sectors.

- I contributed on building a trading platform for an Italian bank. They had an old desktop app and they wanted an ASP.NET MVC with jQuery and Boostrap, a web app where their clients would be able to buy and sell currencies.
- I contributed on building a web platform for a very known German automotive company where the company would be able to see which models are mostly preferred by the clients and with which configuration so that they would use that information and improve their sales.
- I contributed on building the backend part of a mobile app that would help a company's employees to book their seats in the office during COVID time.
- I contributed on building a web app in Blazor that would show reports for many small shops in Austria.

Tech stack I've used:
- **C# .NET**
- **Angular**
- **Azure**

EDUCATION AND TRAINING

14 OCT 2017 – 15 JUN 2020 Tirana, Albania
BACHELOR DEGREE IN COMPUTER SCIENCE Albanian University

CERTIFICATIONS

31 MAY 2024 – CURRENT
Azure Administrator Associate

Skills measured:
- Manage Azure identities and governance
- Implement and manage storage
- Deploy and manage Azure compute resources
- Implement and manage virtual networking
- Monitor and maintain Azure resources
